DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose applicant's claimed method, broadly characterized, as an example, notwithstanding the scope of all of the claim language of the allowed claims, in that "etching a second portion without etching a first portion" relative to a patterned "storage layer," (such as oxide-nitride-oxide) with a "doping" of the "first portion" results in a useful "alignment mark" at the "second portion" and an exemplary "buried bit line" at the "first portion" such that the second portion can be used to align bit line contacts to the buried bit lines.

The reasons for allowance are not limiting to claim scope, and are presented merely to help summarize why the originally filed claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
